

A video about breast screening and mammograms

[Watch video](https://www.youtube.com/watch?v=p4ozp5-dHfQ)(<https://www.youtube.com/watch?v=p4ozp5-dHfQ>)

In this video, two women called Gayle and Danielle talk about breast screening. Breast screening is sometimes called getting a mammogram.

Gayle and Danielle learn that breast screening is important to help find breast cancer early. When breast cancer is found early, women can get treatment. Early cancer treatment can save your life.

The video says that women aged 50 and over should have breast screening every 2 years.
